STUDENT BOARD REPORT

Student Board Representative Elizabeth Yin provided a report of the activities and events occurring at the district's high schools.

SUPERINTENDENT'S REPORT

- Dr. Greg Plutko started his report with more examples of outstanding news. He attended our district's band pageant and commented that it highlighted the quality of our music program district-wide and illustrated why it is important to always keep a place for music in our district. There is a connection between music and student achievement.

SUPERINTENDENT'S REPORT (Continued)

- Superintendent Plutko mentioned at the end of October the district participated in the Great California Shakeout with a full-participation practice drill to ensure everything is in order in case of real life events. On that day, we mobilized our District Emergency Operations Center (EOC). In the spring, staff plan on doing a district-wide test of mobilizing the EOC to see how we do in an emergency. Local law and fire will shadow the operation and make recommendations.
- Mr. Cary Johnson, Director of Education Services, spoke on the Hour of Code.
- Dr. Plutko informed everyone that the State Board of Education approved the latest Local Control and Accountability (LCAP) form for the 2017-18 school year. This annual, updated template will be new and more streamlined. Dr. Plutko stated that he is proud of work we have done with our community and the LCAP.

COMMUNICATIONS

None

BOARD REPORT

- Mr. Eric Padget mentioned that he had the opportunity to attend several football games, band events, the Yorba Linda State of the City Lunch, Orange County Teacher of the Year, as well as the Valadez Academy Read for the Record event. He took time to give kudos to Ms. Manion and the teachers in the district for the leadership they have taken to connect with student educators and gave kudos to staff members of the Placentia-Yorba Linda Unified School District for the quality job they do in educating our students. Mr. Padget stated that the PYLUSD Board believes in high-quality public education for all students and commented on the November 8 Election.
- Mrs. Carrie Buck wished all the Board members up for re-election the best of luck. She was able to attend an El Dorado Volleyball CIF game, the district band pageant, Yorba Linda State of the City Lunch, and is looking forward to her children’s parent-teacher conferences and the Placentia Prayer Breakfast. Mrs. Buck mentioned that next week Dr. Plutko would be attending and briefly addressing the Placentia Community Collaborative.
- Mrs. Carol Downey stated she is proud to serve the PYLUSD as a Board member and of what we have done in our school district. Our district is a destination school district meaning that people move here because of the quality education our district provides. Mrs. Downey had the opportunity to go to the Yorba Linda State of the City Lunch, Read for the Record at Valadez, and our phenomenal district band concert as well as the OC Teacher of the Year at the Disneyland Hotel.
- Mrs. Karin Freeman attended the ROP Licensed Vocational Nurse (LVN) graduation as well as visited Brea and PYLUSD ROP classes with NOCROP Superintendent Terri Giamarino. Mrs. Freeman shared that she will remain the vice-chair of the County Committee. They had their kick-off meeting of the Business Booster Club (BBC) at El Camino Real High School. Other events that Mrs. Freeman attended were the 50th Anniversary Open House at El Dorado, Valadez Academy Read for the Record, Yorba Linda Groundbreaking Ceremony, District Band Pageant, and Valencia Staff Barbeque. Mrs. Freeman wished the very best to the candidates here and reminded everyone to vote.
- Mrs. Judi Carmona went to many of the same events as others and noted that she is exceptionally proud of the teachers and administrators that we have in our district. Mrs. Carmona shared that there were two Veteran’s Day events coming up on Friday, November 11, one at 1:30 p.m. at El Dorado and the other at 2:00 p.m. at Veterans Park on Valley View in Yorba Linda. She encouraged everyone to attend if they could and thanked those who have served or are serving in our military.

³The California Commission on Teacher Credentialing (CCTC) considers it a misassignment when a teacher lacks the proper subject-matter authorization, a proper teaching credential, or the appropriate authorization or credential to teach English Learners if one or more English Learners are assigned to the class. The Williams Settlement Legislation requires that county superintendents report to the CCTC the number of English Learner related misassignments involving classes in which 20% or more of the students are English Learners.

⁴A teacher vacancy occurs if 20 working days after school begins for the semester, a single designated teacher has still not been assigned to teach the class for the entire year or semester (Education Code 35186(h)(3) and California Code of Regulations Title 5 4600(b)).

BOARD POLICYPlacentia-Yorba Linda Unified School District

Students

5145.11 - BP

INTERVIEW AND REMOVAL OF STUDENTS

The Governing Board believes that the safety of district students and staff is essential to achieving the goal of student learning. In accordance with standards specified in law, law enforcement officers may seek to interview and question students on school premises regarding possible criminal activities and may remove them when appropriate.

Consistent with this policy, the Superintendent or designee shall make best efforts to collaborate with local law enforcement agencies to establish procedures which enable law enforcement officers to carry out their duties on school campus, including, when necessary, the questioning and/or removal of students. Absent extenuating circumstances, law enforcement officers will avoid interviewing students at school for non-school related issues. Extenuating circumstances include officers entering school premises in "hot pursuit" of a suspect; an ongoing investigation of a serious nature or felony; suspected child abuse or neglect investigations; kidnapping or abduction investigations conducted by designated peace officers or federal law enforcement officers in accordance with Education Code section 49076.5 where the officer has a lawful warrant or court order authorizing the interview, response to an emergency at the school, or response to a crime committed on school property.

When any law enforcement officer requests an interview with a student, the principal or designee shall request the officer's identity, his/her official capacity, and the purpose and legal authority under which the interview is to be conducted. The principal may seek clarification and/or additional information regarding the purpose and legal authority for the requested interview to take place on school grounds. The principal or designee shall ensure District protocols regarding law enforcement interviews of students on campus are followed.

If an interview is permitted consistent with this policy, the principal or designee shall accommodate the interview in a way that causes the least possible disruption for the student and school and provides the student appropriate privacy.

It is the responsibility of the law enforcement officer to meet any legal requirements from a law enforcement perspective relating to advising a student of constitutional or statutory rights.

Administrators may ask to be present during the interview, but permission is granted at the police officer's discretion. In cases of suspected child abuse or neglect, the child may request a school staff member to be present during the interview.

Except in cases of child abuse or neglect or kidnapping/abduction, the principal or designee shall attempt to notify the student's parent/guardian as soon as practicable when the law enforcement officer has interviewed the student on school premises.

Except as noted below, if a minor student is removed from school into the custody of law enforcement, the principal or designee shall immediately notify the parent/guardian or responsible relative regarding the student's release and the place to which he/she is reportedly being taken. If the minor student is taken into custody as a victim of suspected abuse or neglect, it is the law enforcement officer's

responsibility to notify the parent or legal guardian. The school shall provide the law enforcement officer who takes custody of a victim of suspected abuse or neglect with the name, address, and phone number for the parents/legal guardians.

Subpoenas

Although criminal subpoenas may legally be served at school on students age 12 or older, the Board believes that serving officials should be strongly urged to serve subpoenas at the home of the student. When served at school, the principal or designee shall take reasonable steps to protect the student's privacy rights and to minimize loss of class time for the student. Schools are not authorized to accept service of a subpoena on behalf of a student and are not legally obligated to make a student available to be served on campus unless the student and parent or legal guardian authorize service. The school shall not disclose the home address of the student without a subpoena, lawful court order, or written authorization of the parent or legal guardian, or the school's determination, based on available information, that an emergency requires this disclosure to protect the health or safety of the student or others.

Instruction

6161.1 - BP

SELECTION AND EVALUATION OF INSTRUCTIONAL MATERIALS - ADOPTED

The Governing Board desires that district instructional materials, as a whole, present a broad spectrum of knowledge and viewpoints, reflect society's diversity, and enhance the use of multiple teaching strategies and technologies. The Board shall adopt instructional materials based on a determination that such materials are an effective learning resource to help students achieve grade-level competency and that the materials meet criteria specified in law. Textbooks, technology-based materials, and other educational materials shall be aligned with academic content standards and the district's curriculum to ensure that they effectively support the district's adopted courses of study.

The Board shall select instructional materials for use in grades K-8 that have been approved by the State Board of Education (SBE) or have otherwise been determined to be aligned with the state academic content standards adopted pursuant to Education Code 60605 or the Common Core Standards adopted pursuant to Education Code 60605.8.

The Board shall adopt instructional materials for grades 9-12 upon determining that the materials meet the criteria specified in law and administrative regulation.

The Board's priority in the selection of instructional materials is to ensure that all students are provided with standards-aligned instructional materials in the core curriculum areas of English/language arts, mathematics, science, and history-social science.

The Superintendent or designee shall establish a process by which instructional materials shall be reviewed for recommendation to the Board. Toward that end, he/she may establish an instructional materials steering committee to evaluate and recommend instructional materials. The review process shall involve teachers in a substantial manner and shall encourage the participation of parents/guardians and community members. In addition, the instructional materials steering committee may include administrators, other staff who have subject-matter expertise, and students as appropriate.

If the district chooses to use instructional materials for grades K-8 that have not been adopted by the SBE, the Superintendent or designee shall ensure that a majority of the participants in the district's review process are classroom teachers who are assigned to the subject area or grade level of the materials.

Individuals who participate in the selection or review of instructional materials shall not have a conflict of interest, as defined in administrative regulation, in the materials being reviewed.

The committee shall review instructional materials using criteria provided in law and administrative regulation, and shall provide the Board with documentation supporting its recommendations.

All recommended instructional materials shall be available for public inspection at the district office or the Professional Development Academy.

The district may pilot instructional materials, using a representative sample of classrooms for a specified period of time during a school year, in order to determine how well the materials support the district's curricular goals and academic standards. Feedback from teachers piloting the materials shall be made available to the Board before the materials are adopted.

The Board shall annually conduct one or more public hearings on the sufficiency of the district's textbooks and other instructional materials. The hearing shall be held on or before the end of the eighth week from the first day students attend school for that year. The Board encourages participation by parents/guardians, teachers, interested community members, and bargaining unit leaders at the hearing. Ten days prior to the hearing, the Superintendent or designee shall post a notice in three public places within the district containing the time, place, and purpose of the hearing. The hearing shall not take place during or immediately following school hours.

At the hearing(s), the Board shall determine, through a resolution, whether each student in each school, including each English learner, has sufficient textbooks or instructional materials which are aligned to the state content standards adopted pursuant to Education Code 60605 or the Common Core Standards adopted pursuant to Education Code 60605.8 and which are consistent with the content and cycles of the state's curriculum frameworks. Sufficiency of instructional materials shall be determined in each of the following subjects:

1. Mathematics
(cf. 6142.92 - Mathematics Instruction)
2. Science
(cf. 6142.93 - Science Instruction)
3. History-social science
(cf. 6142.94 - History-Social Science Instruction)
4. English language arts, including the English language development component of an adopted program
(cf. 6142.91 - English/Language Arts Instruction)
(cf. 6174 - Education for English Language Learners)
5. Foreign language
(cf. 6142.2 - World/Foreign Language Instruction)
6. Health
(cf. 6142.8 - Comprehensive Health Education)

The Board shall also determine the availability of science laboratory equipment, as applicable to science laboratory courses offered in grades 9-12.

In making these determinations, the Board shall consider whether each student has sufficient textbooks and/or instructional materials to use in class and to take home. However, this does not require that each student have two sets of materials. The materials may be in a digital format as long as each student, at a minimum, has and can access the same materials in the class and to take home as all other students in the same class or course in the district and has the ability to use and access them at home. However, the materials shall not be considered sufficient if they are photocopied sheets from only a portion of a textbook or instructional materials copied to address a shortage.

If the Board determines that there are insufficient textbooks or instructional materials, it shall provide information to classroom teachers and to the public setting forth, for each school in which an insufficiency exists, the percentage of students who lack sufficient standards-aligned textbooks or instructional materials in each subject area and the reasons that each student does not have sufficient textbooks or instructional materials. The Board shall take any action, except an action that would require reimbursement by the Commission of State Mandates, to ensure that each student has sufficient materials within two months of the beginning of the school year in which the determination is made.

Complaints concerning instructional materials shall be handled in accordance with law, Board policy, and administrative regulation.
